Sixth Annual International Mathematical Modeling Challenge (IM²C) 2020

We are pleased to announce the results of the sixth annual International Mathematical Modeling Challenge (IM²C). There were 30 countries/regions invited to participate in the 2020 IM²C and after the national selection round, 54 teams competed in the international round of judging. All teams worked at their own schools during a 5 day period between March 9th and May 22nd, 2020. Each team was given a modeling problem and then constructed their solutions. This year's problem **Flash Sale** asked the teams to develop a model that reorganized the layout of an electronic and appliance retail store.
